

BridgeScore 3.03 latest release enhancements

- Added a Help button on all screens.
- Corrected tabbing on Names Edit screen.
- Movement Library - list of movements format slightly changed -
- allows for sorting, so it might be easier to see which movements are defined.
- On results screen show real match points and tops (max), rather than normalised match points.
- On Webpage change total and percent calculation.
- On the result page push Colour scheme and Print Hands under Preferences/Webpage menu.
- Fine on the traveller can have a decimal place.
- Event screen - Wireless options - allow to browse for hand records file, when 'Enter Hand Records' ticked. This allows partially pre-dealt pbn file to be completed.
- Load Hand Records button on the event screen can be red or green. Red indicates that a pbn file should be loaded. Green indicates that it has been loaded.
- In Movement Library - Movement description screen - View description, Save button turns red when text has changed, reminding you to save changes. Applies to user defined movements only.
- BP Control Panel - Added Enable/Disable for BridgePal Ranking list. Use this if you wish to hide Ranking from users - keep party winners a surprise!
- Added one winner Appendix Mitchell movements for 11 rounds, 22 boards.
- Added 10 table, 11 round, 22 board Hesitation Mitchell.
- Added 6 table, 7 round, 21/28 board Hesitation Mitchell.
- Added Bowman (1/2 Appendix Mitchell) for 13,14,15 and 16 tables in addition to the others there already.
- Include pivot teams movements supplied by Bill West.
